

The commercial grower's complete probiotic cleaning starter kit

Improve plant health, reduce labor, and maintain cleaner grow environments

HYR

Promotes stronger root development and healthier plant growth

WINNER!
powdery mildew

HYF

Help reduce powdery mildew and other foliage contaminants

pH
NEUTRAL
Non-Corrosive

CO+

Cuts through resin, grease, and organic buildup, and can reduce labor cost

pH
NEUTRAL
Non-Corrosive

C+

Removes microscopic biofilm buildup and keeps surfaces cleaner longer

For healthier plants and facilities!

Receive four 16 oz. bottles of Cleaner Grow concentrated products for just \$59.99.

Essential for healthier plants and cleaner facilities

- Support healthier roots and foliage
- Maintain cleaner grow rooms
- pH Neutral is safer on equipment
- Reduce labor and operational costs
- Safe for plants and people

HIGH YIELD Green Foliage Pro (HYF)

**Cleaner foliage.
Healthier plants.
Better yields.**

HYF is a concentrated probiotic foliage wash formulated to help address powdery mildew and fungal contaminants on indoor and outdoor crops.

Designed for commercial grow operations, HYF can also help manage mite and aphid infestations in controlled indoor environments.

Its non-toxic formula can be used throughout the grow cycle — including up to harvest — helping support cleaner foliage without harsh chemical residues.

HYF can be used for both corrective treatment and ongoing preventative maintenance.

HIGH YIELD Root Wash (HYR)

Healthy roots

Root rot

Healthier roots. Healthier yields.

HYR is a concentrated probiotic biosurfactant root wash is designed to help address fungal root contaminants that can negatively impact nutrient uptake, root health, and crop performance.

Developed for commercial cannabis grow operations, HYR supports cleaner root zones and healthier root development while remaining compatible with existing nutrient programs and feeding schedules.

Its non-toxic formula is suitable for hydroponic and other grow mediums. It can be used throughout the entire grow cycle without harsh chemical residues.

Concentrated probiotic biosurfactant root wash designed for:

- Fungal root contaminants
- Healthier root zones
- Improved nutrient uptake
- Nutrient program compatible
- Use throughout grow cycle
- Non-toxic formula
- Hydroponic, and solid grow media

CO+ A heavy-duty Probiotic Degreaser & Cleaner

For heavy soils, sticky resins, indoor and outdoor equipment & more...

The CO+ formulation is great for heavy-duty commercial greenhouses, indoor grow facilities, propagation areas, equipment rooms, irrigation components, benches, carts, and high-touch surfaces

CO+ uses pH-neutral, EPA "Safer Choice" chemistry and FDA "GRAS" probiotics to create a stable microbial community and provides lasting protection, cleaning to a microbial level while ensuring clean surfaces.

- Leaves beneficial probiotics behind
- Continues cleaning after surfaces dry
- Cleans deep into cracks and crevices
- Helps reduce harmful pathogen pressure
- Supports a healthier microbial balance
- Provides lasting surface protection

The non-corrosiveness of this product can lengthen the life of our valuable equipment!

C+ An everyday probiotic biosurfactant cleaner

A perfect everyday cleaner for commercial grow environments

C+ tackles heavy soils, cleans without scrubbing, and leaves probiotics on surfaces for long-lasting maintenance.

With EPA-listed ingredients and FDA GRAS probiotics, C+ cleans at the microbial level, disrupting pathogens, preventing re-colonization, and maintaining cleanliness for days. It also effectively eliminates odors and is pH neutral for all moisture-tolerant surfaces.

- Ongoing protection
- Odor elimination
- Reduces pathogen spread
- Wet or dry use
- Prevents recolonization
- Eco-friendly formula
- Safe for people & equipment
- Cleans + protects
- Deep crevice action
- Probiotic surface protection
